

Manager, Facilities Job Posting

TITLE: Manager, Facilities

LOCATION: 661 Main

REPORTS TO: Executive Director

DIRECT REPORTS: Maintenance Workers, Green Team Members

STARTING SALARY: \$60,000

HOURS: Full-time

POSITION SUMMARY

Reporting to the Finance Director, the Facilities Maintenance Manager will be responsible for ensuring that MSP facilities are operated and maintained in a safe, efficient and effective manner. Managing supplies, cleaning and staff. This position will have a lead role in project management of structural capital projects (new and existing buildings). This position works collaboratively with internal stakeholders, trade / construction professionals.

KEY RESULT AREAS

Daily Maintenance Services

Lead and supervise delivery of highly efficient and effective daily maintenance services for MSP buildings. Fully understand the operation, features, strengths, and shortcomings of existing facilities. Make recommendations that will increase ease of use for MSP staff and clients. Develop metrics and key performance indicators for maintenance services. Work cooperatively to ensure cohesive and consistent customer service. Manage annual operating budget for facility repairs and maintenance.

Agency-Wide Maintenance Plan

Lead in development of a proactive maintenance plan that describes current conditions of MSP buildings and facilities. The plan shall make recommendations for each building and its individual building systems with respect to projected remaining service life and estimated costs to repair, renovate, or replace. Keep current and resulting plan to keep short term, mid-range, and long-range recommendations with respect to maintenance efforts and corresponding annual expenditures required to maintain MSP facilities at a high level.

Facilities Management

Be a champion for the development within MSP of a detailed facilities management database of MSP owned/operated buildings. The database shall track size and detailed condition within each building. These databases shall be maintained current at all times. Database will provide a variety of facilities space utilization and conditions reports to the Finance Director.

Dashboards and Benchmarking

Create and routinely provide reports that measure and monitor the maintenance activities and costs. Track maintenance and facility improvement projects by type and regularly report progress on schedules, costs, scope etc. Make recommendations for continual improvement. Be active in professional organizations to learn of new best practices.

DUTIES AND RESPONSIBILITIES

The Manager is responsible for all functional characteristics of MSP buildings considering health and safety features, such as emergency procedures and security; sustainability; and cost effectiveness. The Manager is responsible to evaluate and maintain MSP buildings and grounds, meeting operational standards; schedule routine maintenance tests; maintain fire and safety standards in all areas, and the ability to test and replace parts and components in plumbing, electrical, and heating systems.
